HyGen Pharmaceuticals, Inc. Announces New Facility in Redmond with Expanded Distribution Capabilities

Redmond, WA.---- HyGen Pharmaceuticals, Inc. announces today that it has relocated to a much larger facility in Redmond, WA. The new state of the art warehouse and office in addition to investments in highly automated systems increases the company's distribution capabilities to capitalize on the accelerated growth it is experiencing.

“This move signifies our strong commitments to our vendors, customers and staff as to our future,” said Nishit Mehta, CEO HyGen Pharmaceuticals, Inc. “We have taken this opportunity to continue to raise the bar for pharmaceutical distributors to meet the needs of independent pharmacy owners, their patients, and their families.”

HyGen Pharmaceuticals, Inc. is an independent company dedicated to improving pharmaceutical supply chain integrity, with the ability to impact health care costs as a leader in offering significant savings in the prescription drug distribution channel. HyGen continues to provide a professional and positive environment for staff and business partners as the company achieves substantial growth.

HyGen is an Inc.500 company, and was awarded the Minority Business of the Year Award by the University of Washington. The company has experienced tremendous growth over the last two years and expects to keep the pace in the coming years.

“We are proud of our accomplishments as a team and the manner in which we learn and grow; creating a strong business by relying on the strength of our business practices,” said Mr. Mehta. “We continue to lead the industry by adopting new technology to drive growth in the business. HyGen is known in the industry as one of the most successful, customer service oriented companies. As always, we continue to invest in the business.”

HyGen Pharmaceuticals, Inc. will operate from: 8635 154th Ave, NE, Redmond, WA 98052. The telephone numbers 425-451-9178 or 1-877-630-9198 and fax number 425-451-8964 remain unchanged. For more information visit: www.hygenpharma.com.
